

# NEW!

Revolutionary  
design flexibility  
with Erickson  
*one-fold*  
wall tables

24 MODELS TO CHOOSE FROM — SIX CABINET HEIGHTS, 3 TO 7 FEET

## ONLY ERICKSON OFFERS

**YOU** new and complete design flexibility—lets you put tables where you want them. Plan the building to suit yourself, then choose the right Erickson combination to fit your design. No more designing the building around the tables.

Only Erickson, the originator, offers 24 models to choose from: on wall . . . recess-wall . . . single or nested . . . with or without benches . . . 6, 7, 8, 10, 12 and 14\* foot models in cabinets from 3 to 7 feet high.

Specify Erickson for highest quality, lowest price.

*\*14 foot model with separate benches only. All others offer benches attached or separate.*

**HH HALDEMAN  
HOMME •**

*Manufacturing Company*

2580 University Ave.  
St. Paul 14, Minnesota

**Here's one dramatic way to use  
Erickson's new one-fold tables: Store 24 feet  
of tables in one 3 foot high wall cabinet.**

Here's the quality you get in each and every one of Erickson's 24 one-fold models: 1. Two steel channels under each bench and the table top, an Erickson exclusive, 2. Rugged, simple understructure, no unsightly knobs or projections to bump or tear, 3. Torsion and compression springing for one-step controlled folding and unfolding, 4. Bonded NEMA plastic tops and benches with  $\frac{3}{4}$ " solid core material, 5. Sanitary benches never touch table tops, 6. Position locks —no teeter-totter when extended, no "surprise" openings when folded, 7. Walk-in ends, nothing to hurdle, 8. Pivot points in metal, can't pull out. Only Erickson offers the quality you want for long life, the flexibility you need for complete design freedom.

Look at this line-up! Check the cabinet heights. Check the model variations. And this is only part of the Erickson line!

**SEE HOW THE ERICKSON TABLES NEST.** Each table has its own track and its own guide wheels. Wheels move easily to the right track and a simple push puts the table exactly in place. Take out one table, or two, or all. The school gets flexibility, too. (Photo shows two portable models nested. Wall units nest flush in cabinets.)

**SIMPLE, FAST, EASY, SAFE OPERATION.** Erickson's special torsion and compression springing maintains complete control throughout the entire folding and unfolding cycle. Never before has folding and unfolding been so convenient and effortless.

**ON THE WALL OR IN THE WALL.** Cabinets may be recess-mounted in the wall to give you maximum floor area. If wall construction prevents recessing, they may be mounted on the wall. As both tables and benches are individually detachable, the initial cost of wall cabinets may actually result in long range economies.

**NO MORE DESIGNING AROUND THE TABLE.**

Now you can have the window or wainscot treatment you want. Then select the wall table or table combination that's exactly right for your design. You can even put Erickson wall tables under cork-board display areas, in home ec. rooms, labs, etc. Choose Erickson. They fit.

# ERICKSON ONE-FOLD WALL TABLES

RW 1 & 2	14'	30"	86"		29"	56½"	17"	5½"	89"	87¼"	61½"	59"	34"	31½"

Note: On-Wall Tables have Model Numbers similar to Recess Models, except, for example, a 12 ft. table has Model No. 2912-BOW, instead of 2912-BRW. For 14', use RW and OW. Cabinet Dimensions for On-Wall Tables are the same as the following two dimensions given for the Recess Wall Cabinets: Width Front "A"; Width Back, same as front; and Depth "C". Cabinet depths are for single tables only. For nesting, multiply by number of tables desired.

## SPECIFICATIONS

Tables shall be Erickson "One-Fold" Model (No.) (specify unit or combination of units desired from above chart). Recess Wall (or On-Wall) type Tables with Benches (without benches) as manufactured by Haldeman-Homme Mfg. Co., St. Paul 14, Minnesota.

**OPERATION:** Tables (and benches) shall fold and unfold from wall cabinet in a single operation with both folding and unfolding operations controlled through their cycles by a combination of torsion and compression springing. End legs shall be equipped with casters.

**CONSTRUCTION:** Top to be of ¾" solid core material with NEMA Standard high pressure Melamine plastic 1/16" thick bonded to tops with plastic balancing sheet on the under-

side. (Tops of benches to be plastic covered with plastic balancing sheet on the underside.)

Color of tops (and Benches) shall be \_\_\_\_\_, Specify number of tables desired in the color combination desired from the following: Yellow Plaid Top (with Charcoal Plaid Benches) . . . Turquoise Plaid Top (with Charcoal Plaid Benches) . . . Light Birch Top (with Charcoal Plaid Benches) . . . Light Birch Top (with Light Birch Benches.) (Other selections on special order.)

All edges of tops (and benches) trimmed with flush-type plastic T-molding with no exposed fastenings.

**UNDERSTRUCTURE:** Legs of 1" 14 gauge round steel tubing cold formed and jig welded. Table top shall have two 14 gauge channel steel frames of 1½" (and benches shall each have two channel steel frames — outside

channel 23½" . . . inside channel 1½"). All metal parts finished with gray baked enamel applied by electrostatic process.

**RECESS WALL CABINETS:** To be of 16 gauge steel construction, complete with strap anchors welded to each side of cabinet. For Recess Wall installation make openings approximately ¾" wider at top and sides and ½" more in depth than actual cabinet measurements.

Note: Lintels for cabinets to be supplied by others when required.

**ON-WALL CABINETS:** Same as Recess Wall cabinets except shall have finished sides and top to mount to existing walls.

**FINISH:** Recess Wall or On-Wall cabinets shall be supplied with prime coat, to be finished on job by others.

**ALL PARTS AND MATERIALS** to be

unconditionally guaranteed.

Note: Copy within the parentheses to be used when specifying tables with benches.

## 14' OPERATION

Tables shall be equipped with hydraulic cylinder for automatic and safe opening. There shall be an opening between table and bench tops to act as safety space. Tables and benches shall open with manual lock, and lock automatically when folded to close position. Unlocking shall be accomplished with special key wrench through stile of cabinet with no openings in table top or bench tops. Both tables and benches shall detach from the cabinet.

Complete specifications, shop drawings and 20 page catalog available from nearest Erickson distributor or from Haldeman-Homme.
